PERSONAL STATEMENT

I am a motivated and internationally experienced volunteer with a strong commitment to community development, education, and humanitarian action. Having participated in ESC-funded projects abroad and contributed to grassroots initiatives in Morocco, I bring both hands-on experience and cross-cultural sensitivity to every setting I work in. I am eager to engage with diverse communities, support youth development, and contribute to meaningful social change through volunteering.

WORK & VOLUNTEERING EXPERIENCE

International Volunteer — ESC Project | *Genc Caba Dernegi, Muş, Türkiye* | 09/2025 – 10/2025

- Selected through a competitive process for the ESC project "Earthquake: For a Future Without Fears", funded by the European Solidarity Corps.
- Designed and delivered interactive safety and disaster preparedness workshops for over 200 children aged 6–14.
- Created educational materials, visual aids, and activity booklets used in community awareness campaigns.
- Completed specialized training with AFAD (Turkish Disaster and Emergency Management Authority) on disaster response, risk assessment, and first-aid protocols.
- Collaborated with local NGOs, schools, and municipal institutions to develop community action plans and followup activities.

School Volunteer | *Various Schools, Taroudant Province, Morocco* | 01/2024 – Present

- Supported classroom activities across multiple primary and secondary schools, assisting teachers with student engagement and learning facilitation.
- Mentored students on academic performance, time management, and personal development strategies.
- Organized and led cultural, creative, and extracurricular events to boost student motivation and community spirit.
- Co-founded an informatics student club at Ibn Zohr College to promote digital literacy among peers.

Earthquake Relief Volunteer | *Taroudant Province Relief Project, Morocco* | 09/2023 – 12/2023

- Deployed immediately following the 2023 Al Haouz earthquake to support emergency response operations in affected areas of Taroudant Province.
- Coordinated distribution of essential supplies (food, water, hygiene kits) to displaced families in remote areas.
- Worked alongside local authorities and civil protection teams to assess community needs and prioritize vulnerable populations.

EDUCATION AND TRAINING

Bachelor of Science — Informatics Engineering (MIP) | *Ibn Zohr University, Taroudant* | 2023 – Expected 2027

- Core modules: Linear Algebra, Algorithms & Programming (Python, C), Computer Networks, Web Development (HTML/CSS), Electrostatics.
- Active member and co-founder of the university's Informatics Club.

High School Diploma — Science (Physics & Chemistry) | *Sidi O Sidi High School, Taroudant* | Graduated 2023

- Graduated with distinction in the Sciences stream.
